CANDLE

Candles is our special passion. For decades we have been the world market leader for candle varnishes and candle colours with constant improvements and innovations.

Candle Lacquers

Candle Colors

Silk print lacquers

Additives

Accessories

Solvents

The proven surface refinement, which offers a multitude of effects, is available in an unlimited range of colors. The advantages are short drying times and easy handling.

Hydro

Water-based paints are resistant and do not form unpleasant odours. Due to the low solvent content, no safety devices are required during application.

Decoration

Candle lacquers for that special something. Perfect colours for easy processing. From matt to glossy, you can choose from an almost endless range of colors.

Additives

Accessories

Solid

Additives especially for the processing of solid colors / pastilles. No matter whether you are looking for an improved burning behavior, UV stabilizer or a dispersing additive, you will find what you are looking for here.

Liquid

Additives especially for the processing of liquid colors. Easy to use but absolutely effective.

Even the most beautiful puzzle is not complete, if the last piece is missing!

That's why we've put together a list of accessories to help you use Kaiser paints and varnishes perfectly.

You'll find viscosity cups, dispersing discs and other useful aids for varnish and paint processing there.
